

#LoveOurRivers

Many of the rivers in South Wales start their life in Y Bannau Brycheiniog.

Where does your local river start its life?
Can you locate its source and the journey it takes on a map?

Go outside and use natural materials to create a 3D model of your local river system.
Demonstrate how it flows from its source in the mountains to its mouth by the sea. Use our river labels to help you to identify the different river features in your model.

Is your river a good habitat for wildlife?
What could affect the animals and plants that live in and depend on your local river?
